CALE OF PATENT-RIGHTS FOR THE Use of Seely's Patent Lime and Cement Kiln.—The practicability and utility of the above invention, for the speedy and economical manufacture of the best and purest lime and cement, having been fully demonstrated by the working of the kiln, erected by the undersigned, upon his patent, in the city of Washington, he now offers to the public generally an opportunity to purchase the patent-rights for the several States of the Union. Rights for counties will be sold separate-Union. Rights for countes will be sold separately if desired. The kiln is capable of burning more lime than any three kilns in the country combined. The average product of the one built in Washington is one hundred and ninety barrels of lime per day, with a consumption of only five cords of wood as fuel. A Cement kiln, built upon this principle, will burn between two hundred and fifty and two hundred and ninety barrels of cement per day. For the manufacture of lime it is capable of cal-

Being the productions of distinguished jurists and civilians, fully authorized to decide the vari-ous questions of civil. common, international, constitutional, commercial, and municipal law, which have arisen in the course of the adminis-tration of the government, and bearing, as they do, upon nearly every subject of civil polity and jurisdiction, it necessarily follows that they are scarcely inferior in importance to the Constitution which they defend, and the laws which they explain. They not only set forth the political economy and fundamental principles of the federal gov-erament, and the rules and regulations enforced in its administration, but they also define the powers and duties, and, in many instances, the compensation of its civil and military officers. H ENRY'S INVIGORATING CORDIAL,
Purely Vegetable in its composition.—This
invaluable Cordial is extracted from Herbs and
Rrrts, which have been found after years of experience, by the most skillful physicians, to be possessed of qualities the most beneficial in the liseases for which it is recommended; and hence, diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its 
safety. In cases of Impotency, Hæmorrhages. 
Disordered Sterility, Menstruation, or Suppression 
of the Menses, Fluor Albus or Whites, or for 
Debulity screening from any cases, such as Debility arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects

or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the neart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a ronic medicine is required, it will be found equal not superior to any compound ever used.

To Females.—Henry's Invigorating Cordial is one of the most invaluable medicines in the many complaints to which females are subject. It assists nature to brace the whole system, check ex cesses, and creates renewed health and happiness Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated

by those obstructions which females are liable to, are restored by the use of a bottle or two to bloom Young Men .- That solitary practice, so fatal to the existence of man, and it is the young who are most apt to become its victims, from an ignorance of the danger to which they subject themselves,

Nervous Debility, weakness of the system, and premature decay. Many of you may now be suffering, misled as to the cause or source of disease. To those, then, who by excess have brought on themselves premature impotency, involuntary seminal emissions, weakness and shrivelling of the genital organs, nervous affection, or any other consequences of unrestricted indulgence of the sensual passions, occasioning the accessity of re-nouncing the felicities of Marriage, lessening both mental and bodily ca-

pacity, hold! Henry's Invigorating Cordial, a medi-cine that is purely vegetable, will aid nature to restore those important functions to a healthy state, and will prove of service to you. It possesses rare virtues, is a general remover of diseas

strengthener of the system.

As a Tonic Medicine, it is unsurpassed. We do not place this cordial on a footing with quack edicines, and, as is customary, append list of recommendations, certificates, &c., begin ning with "Hear what the Preacher says," and such like; it is not necessary, for "Henry's Invig-orating Cordial" only needs a trial to prove that t will accomplish all we say.

NOTICE TO U. S. MAIL CONTRACTORS AND THE PUBLIC.
AUDITOR'S OFFICE, POST OFFICE DEPARTMENT,

November 1, 1853. TT HAS BEEN LONG THE PRACTICE of this office to pay the drafts drawn and nego-ated by contractors for carrying the United States mails, for the amounts, respectively, of their quarterly pay. It was established to accommodate the contractors, and meet their necessities, in advance of the regular and slewer process of paying by the drafts or warrants of the department, and was intended only to apply to one draft per route from each contractor for the whole amount (deducting fines, collections, &c...) of his quarterly pay; but it has been, and is quite generally so misunderstood, as to be supposed to allow any number of drafts, and for any amount, not exceed ing in the aggregate, the contract pay for the quar ter. A privilege conceded for accommodation (for it was never anything more) has thus been made to embarrass materially the business of this office, forced upon it the settlement of the private accounts of contractors, and thrown upon the exchanges of the country, with a quasi sanction of

this office, a species of paper currency unauthorthe news.

It not unfrequently occurs, too, that this office is exposed to great and unnecessary risk in determining upon the genuineness of the signatures to the assignments or endorsements of the various persons through whose hands these drafts are

nade to pass before their presentation. It is therefore deemed proper to give this public notice to contractors, and all concerned, that from and after the 1st day of January, 1854, but one draft for the pay upon each route per quarter will be payed, or filed for payment, in this office. This draft should state upon its face, that it is the only one for the quarter and the route (both to be specified) on which it is drawn; and the signature there when the state of the the payment of the place. to should be attested by the postmaster at the place where it may be drawn, and one other witness; and each assignmen: thereof should be attested by two

PROSPECTUS OF THE NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their feineds

of the democratic party, their friends, and the Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there ernment. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence. has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and discretion—in the public weal.

devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now prosecuting the same great work.

Although mainly devoted to the discussion of uch political questions, as they arise, which affect he welfare of North Carolina, whether relating to the welfare of North Carolina, whether relating to the federal or State governments, or such local in-terests as may be of importance, it is nevertheless intended to make the *Statesman* a medium of ge-neral intelligence. Accordingly, the state of the markets in the principal cities, to which eur com-merce goes, shall be fully and accurately reported; nor will the attention of the conductors be less ad-dressed to the subject of internal improvements, as a means indispensable to the development of as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall al-ways command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of ex-

vancement of the interests of North Carolina.

The general objects of the proposed paper beinthus clearly indicated, it may not be amiss briefly to state the particular views which are to be sus tained by it as a political journal. 1st. Our purpose being to publish a paper purely de-nocratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense an organization which originates in the popular will, expressed by the people in their primary as semblies, and which has been so successfully in troduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decision and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organiza-tion of the people, and not of intriguers; restoring

power to those who, by sufferance, have tolerate s temporary usurpation.
2d. The democratic party shall always find in us 2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good eld State rights platform of '95, we shall oppose government corporations created by Congress for the purpose of internal improvement the regulation of forces. of internal improvement, the regulation of finance

3d. Believing that the platform adopted by the ate Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the ardinal doctrines of the American democracy
4th. They will advocate all such measures of in ernal improvement as promise by judicious prosecution to promote the interests of the people and liffuse the benefits of a system already enjoyed by

of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in re-iation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of ap-propriating the proceeds of their sales to the pay-ment of the public debt, and the expenses of the government. It has for some time ceased to be ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall protest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do that it has become the settled policy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Carolina's share of the public domain."

6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national honor.

Tenue Feathe contractive the residual to the property of the sentiments of the particular to the property of the sentiments of the national honor.
